DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a method for improving visibility in a motor vehicle which has at least one light source illuminating an illumination range having, inter alia, the step of adjusting the light source as a function of the sensor signals in such a way that the spatial or temporal irradiation of the at least one object which is present at least with light having wavelengths outside of the visible spectrum of the light source is less than a specifiable first limiting value (claim 11). The remaining claims 12-29 are allowed by virtue of their dependencies from the independent claim. Hence, the examiner has allowed claims 11 through 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
